In the case of events with music from original CDs and the like, the royalties are increased by 20 per cent on behalf of the "Gesellschaft zur Verwertung von Leistungsschutzrechten mbH" (GVL). In the case of live music events, where music is additionally played from original CDs, etc. e.g. in the intervals, the royalty rate is increased by 10 per cent on behalf of GVL.

If certain times are exceeded, the above tariffs may be subject to extra charges.

At events organised for invited guests (such as company anniversaries, receptions, advertising functions, product presentations, etc.), where the organiser does not collect any admission fee or make any other charge, the costs (net) of musical performances (such as artists' fees, expenses for the stage and technical facilities, moderators, DJs, etc.) are divided by the number of guests invited. This result represents a fictitious payment used to determine the royalty amount.

All amounts shown are net amounts and subject to VAT at the rate of 7 per cent.
