

## Special provision for distribution in category M for the 2022 financial year

### Distribution in two stages – on 1 June and 1 July 2023

**Stage 1:** On **1 June 2023**, as in the previous two years, the distribution for category M based on live performances in 2022 will take place. As per the special provision for the 2020–2022 financial years (§ 129 of the distribution plan) and in a departure from standard procedure, no new point value will be calculated in segments 1 to 8. Instead, the **average point value in category M** for the 2017–2019 financial years will be used as a basis. In segments 9 to 12, the 20% M supplement (collections of 500.01 euros or more) will remain unchanged.

**Stage 2:** On **1 July 2023**, the remaining balance of the M distribution for the 2022 financial year will be allocated as a percentage-based supplement to your payouts in category M for the 2018 to 2021 financial years (“M-Zuschlag Corona/COVID-19 M supplement”). You can find the actual payout amount listed in the account statement you receive on 1 July 2023.

## Mechanism of the special regulation
